It has been claimed that Sagan had originally asked for permission to include "Here Comes the Sun" from the Beatles' album Abbey Road; but while the Beatles favoured

 $\checkmark$ 

Voyager 2 is the only spacecraft to have visited all four giant outer planets in the solar system. At 41 years after launch, it is NASA's longest-running mission.

The Golden Record

A TIME CAPSULE OF EARTH

0-0

The Voyager Golden Records are two

phonograph records that were included aboard both Voyager spacecraft launched in 1977.
