

Home, sweet home

collection of eco-furniture

designed by Jan Kovářiček

Aim

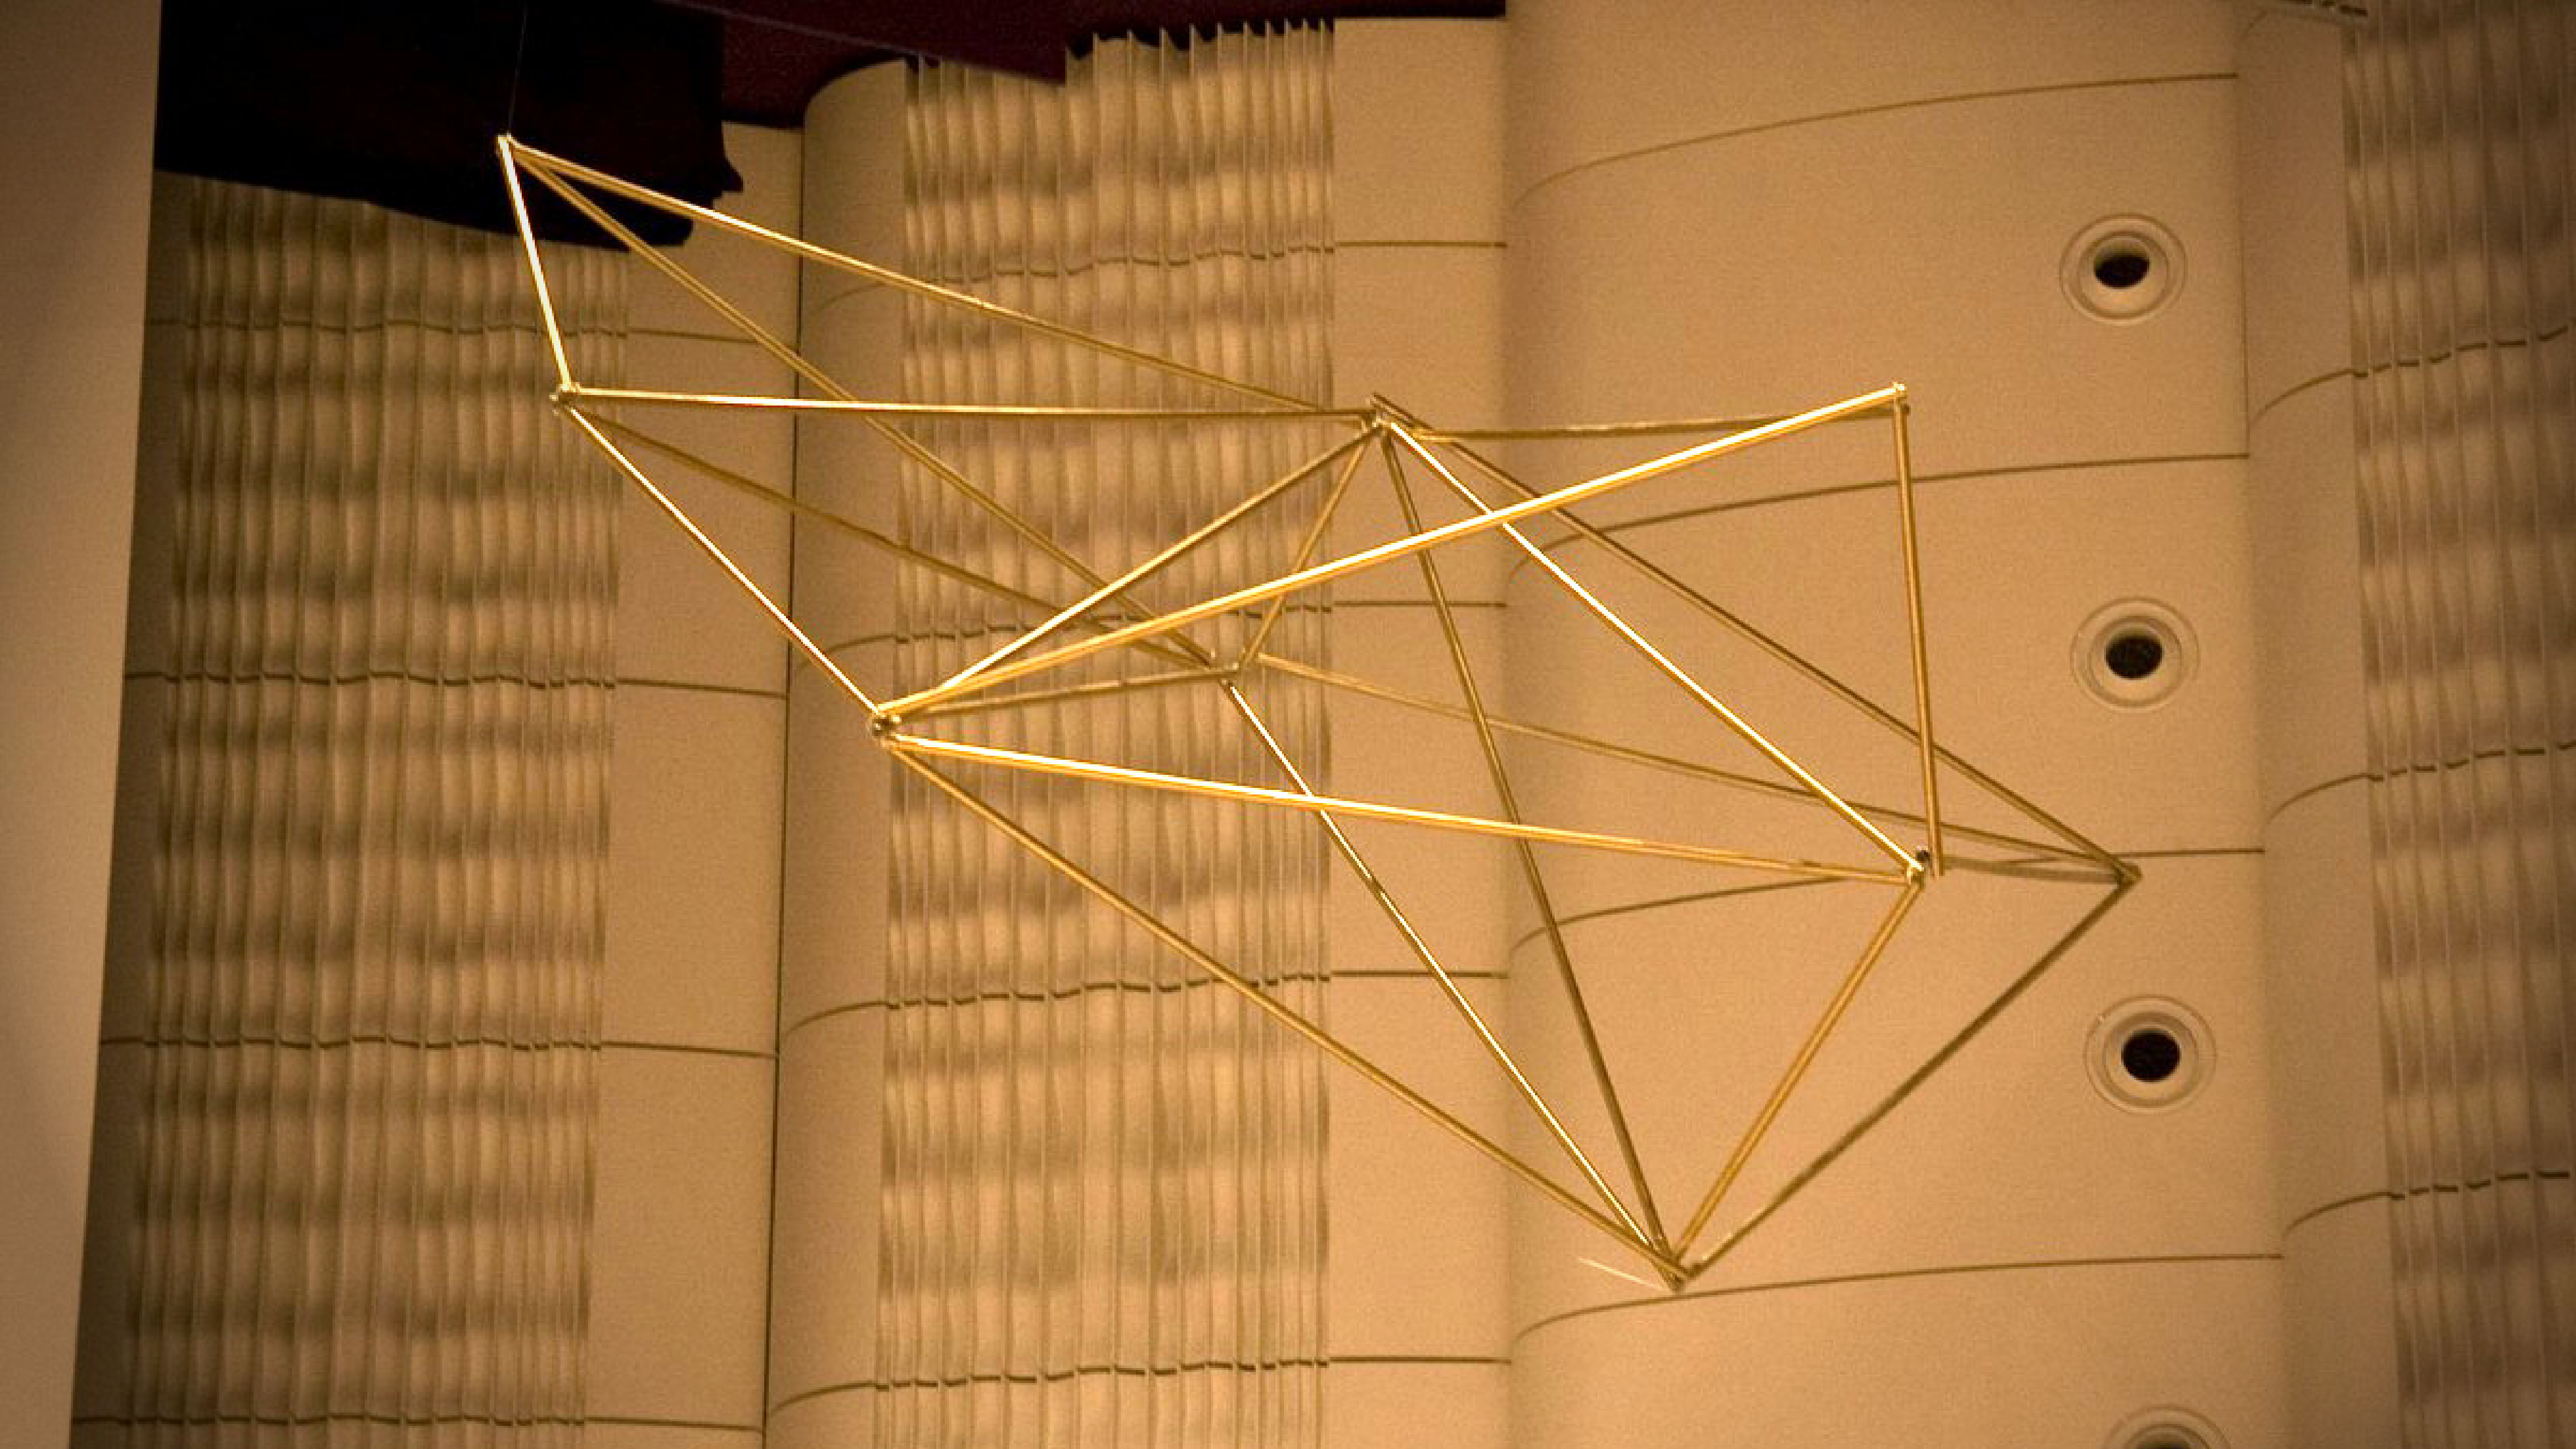

"rather than ending up in second-hand shops and becoming classics, their final resting place should be intended to be the active role in the living-room

Process

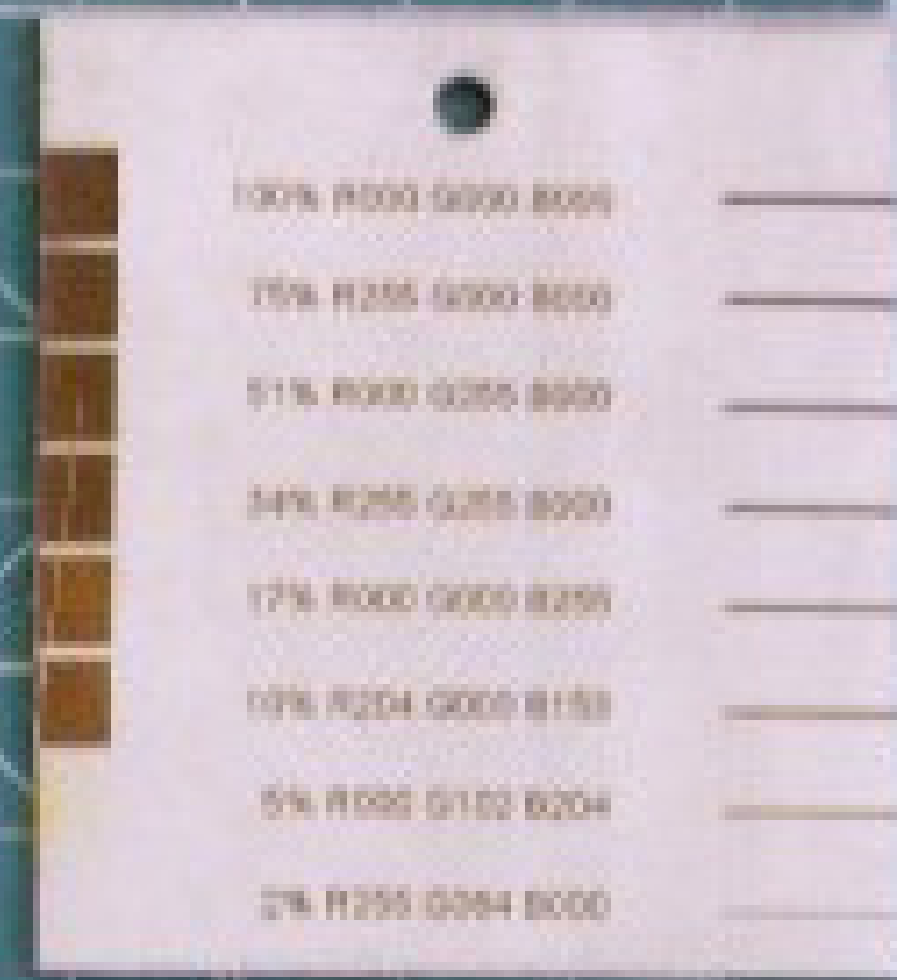

- 1 :: Find the material
- 2 :: Find what people need
- 3 :: Find the manufacturer
- 4 :: Design

1 :: The Material

Local waste with no obvious value
used PVC pipes

2 :: The need

Furniture and house accessories for
young people/students

3 : : The manufacturer

Me, using the materials

I found around (wire, PVC,
threaded rod, bike tubes...)

4 :: The design

Minimalism

Utilism
